

Creating a tobacco free generation: how far have we come and where to next?

Sheila Duffy

Chief Executive ASH Scotland

15:00-17:00 Tuesday 16th February
Kings Quad Ground Floor 3 (KQG3)

This session outlines trends in tobacco use in Scotland over the last 40 years, key policy and advocacy events during this period, contemporary issues in domestic tobacco control, and reviews the global burden of disease for tobacco, its impact on low and middle income countries and international policy responses

ASH Scotland seeks to improve health by limiting the number of young people taking up smoking, reducing the number of adult smokers, protecting people from second hand smoke and tackling the inequality resulting from tobacco.
